## 1. Introduction

In recent years, Royal Mail announced its price changes for each April by the end of the preceding December. This will continue to be the process for some products this year including all products bought using the stamps or meters payment channels. However, most of our business mail prices on account will not be announced until March 2011, with the changes coming into effect in May. This means business prices will remain unchanged for a longer period than in previous years.

The reason for the two announcement dates is that we cannot announce most account prices until Postcomm has completed its public consultation into pricing levels for next year. This is due to be completed at the end of February 2011. We must then wait for Wholesale prices to be announced before we can set Retail prices.

This document contains all the prices which we can announce now. Most of these will be implemented in April but a few are for May. The different implementation dates are clearly indicated in separate sections.

Prices effective from April 4th 2011
